train
each week

≈30 speedy
trucks

Road service between Türkiye & Hungary

Transit time (IST- BUD)

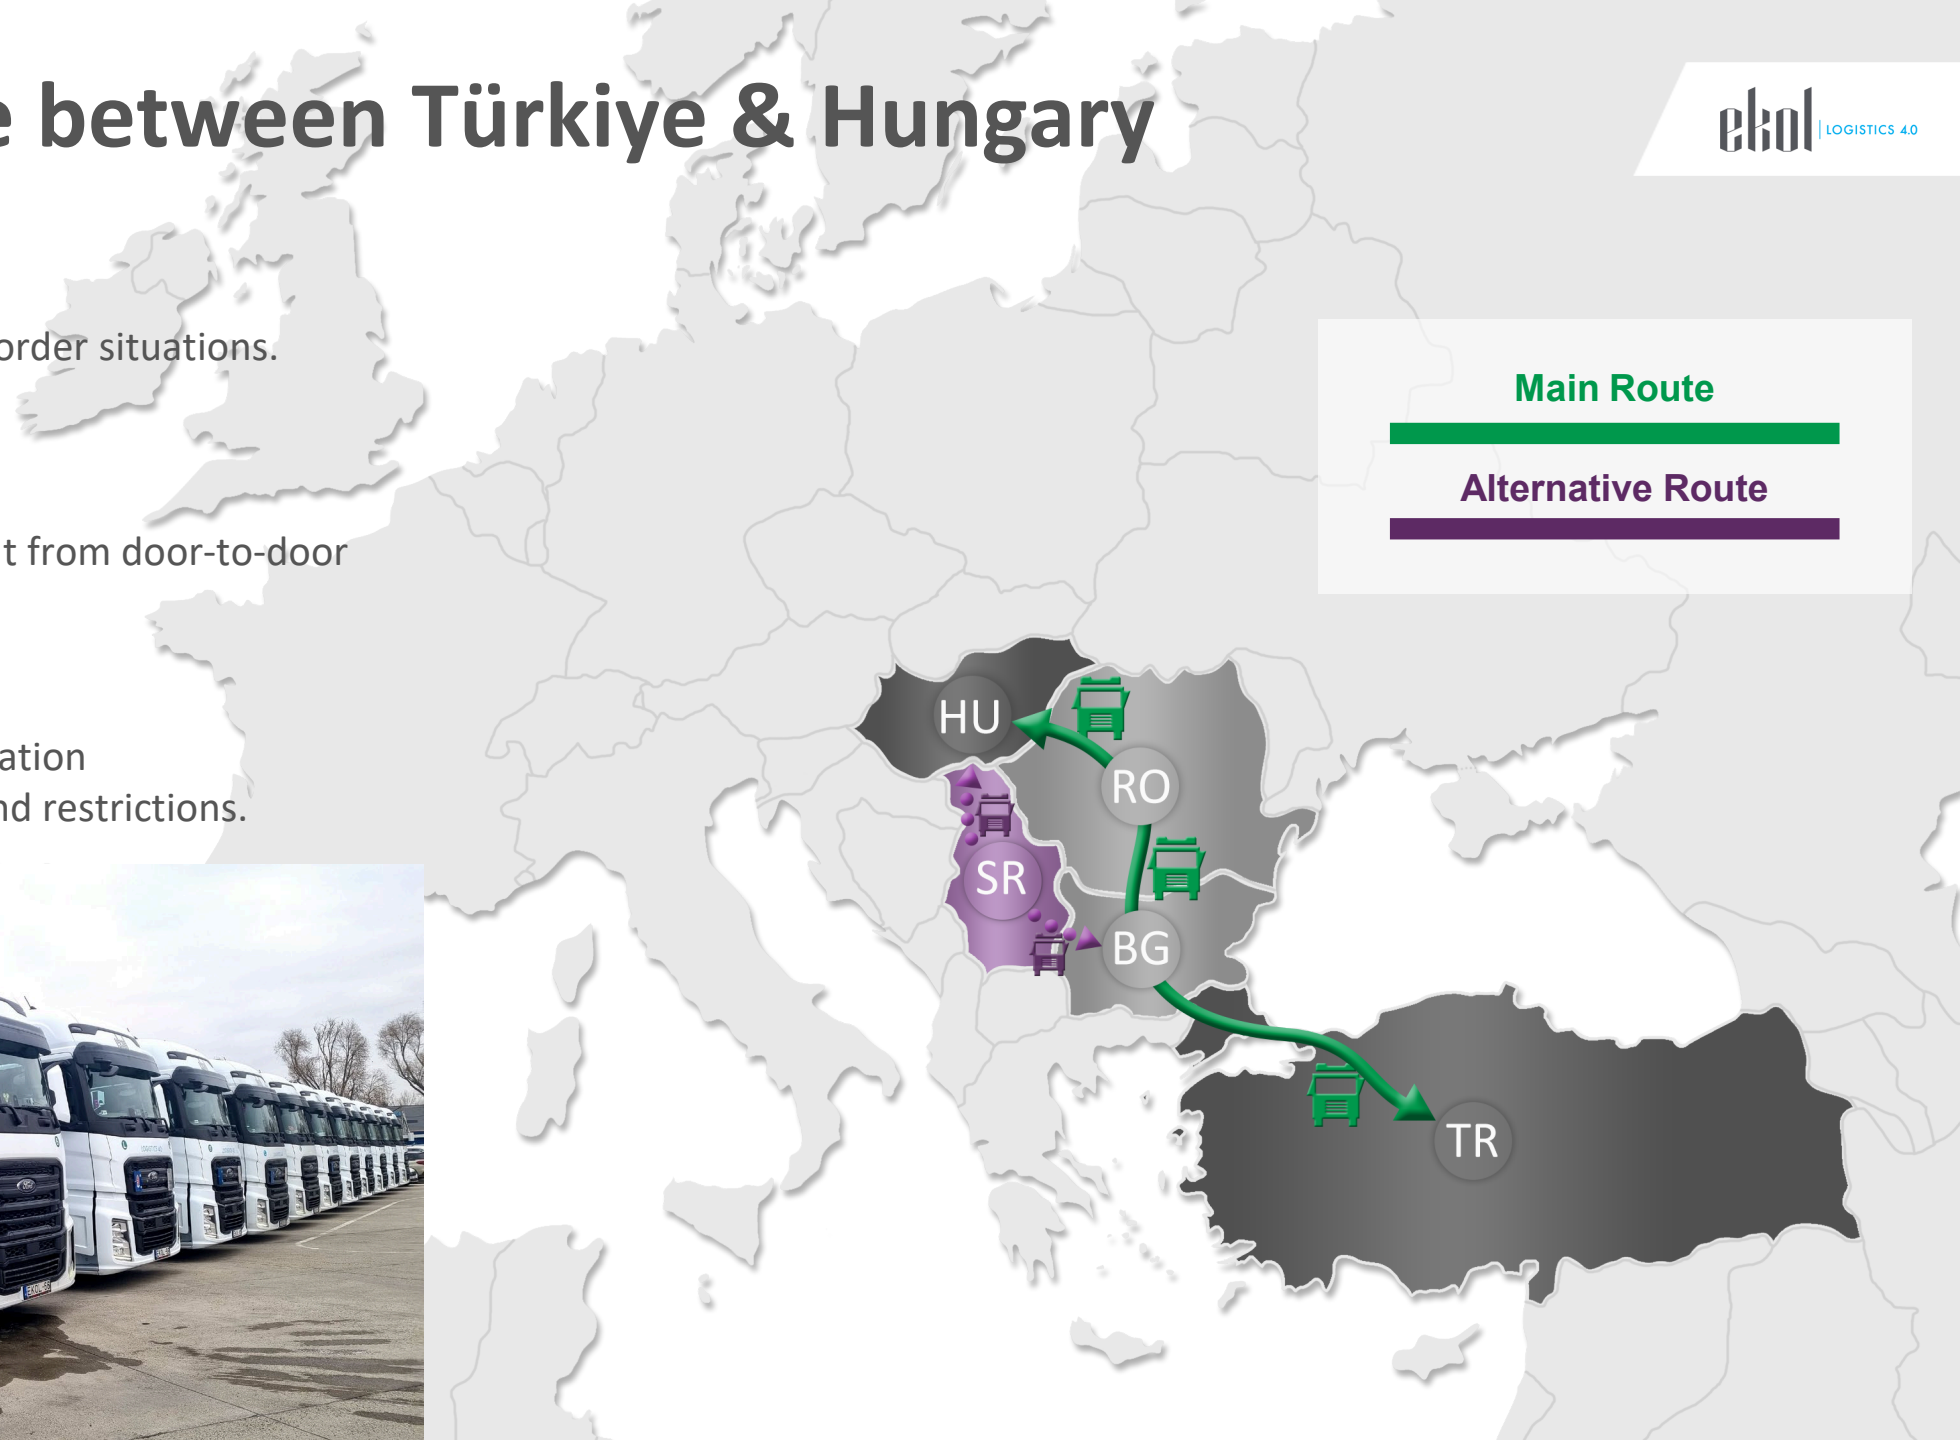

3-5 days, depending on the border situations.

Advantages

- Shortest transit time
- Same transport equipment from door-to-door
- Lowest damage ratio.

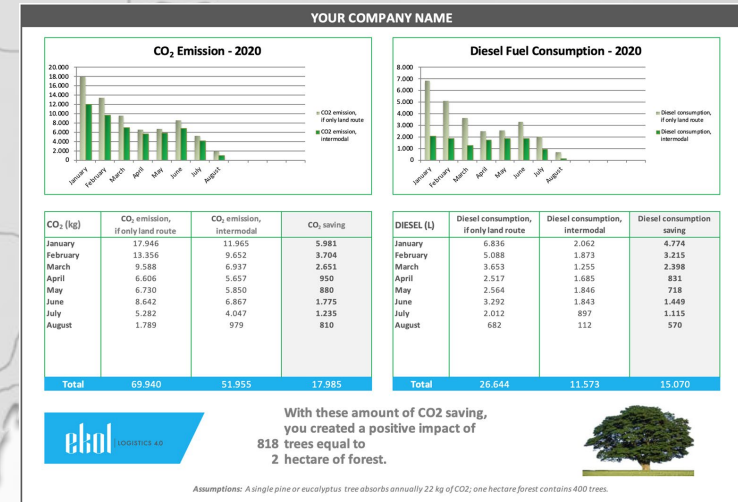

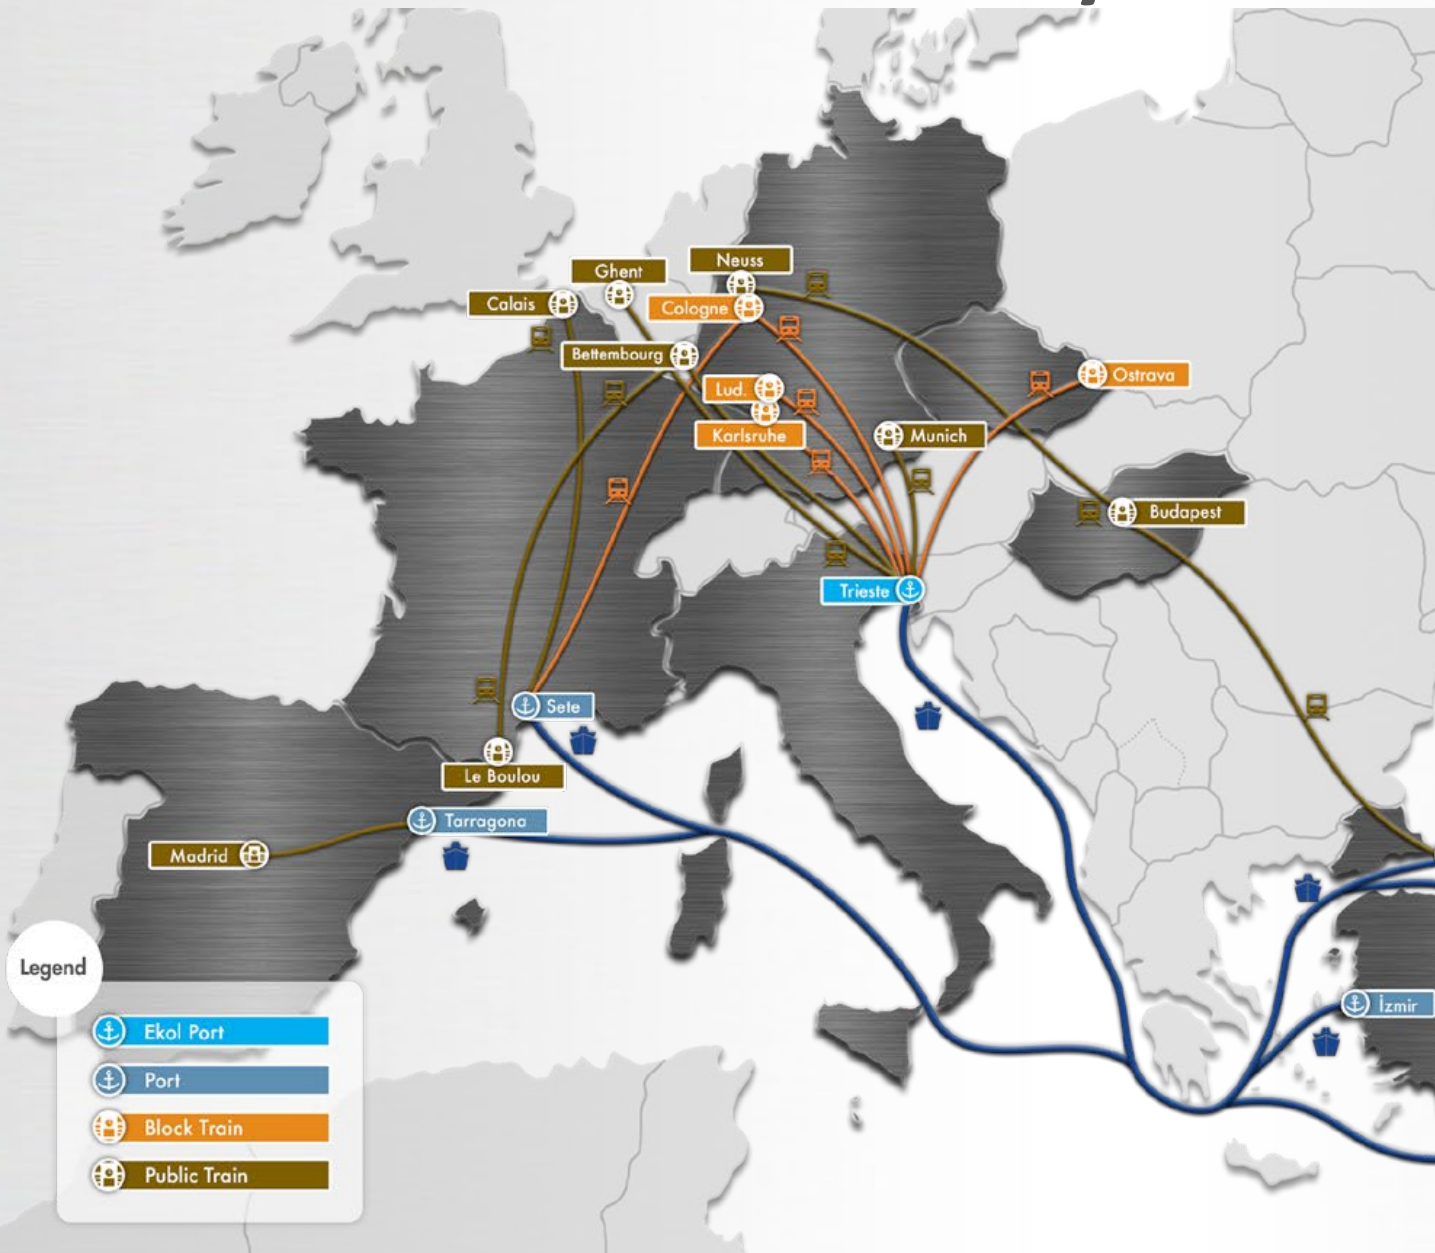

Disadvantages

- Unpredictable border situation
- Road permit limitations and restrictions.

Intermodal corridors used by Ekol

26 dedicated trains within Europe

Rail service between Türkiye & Hungary

Transit time (IST – BUD)

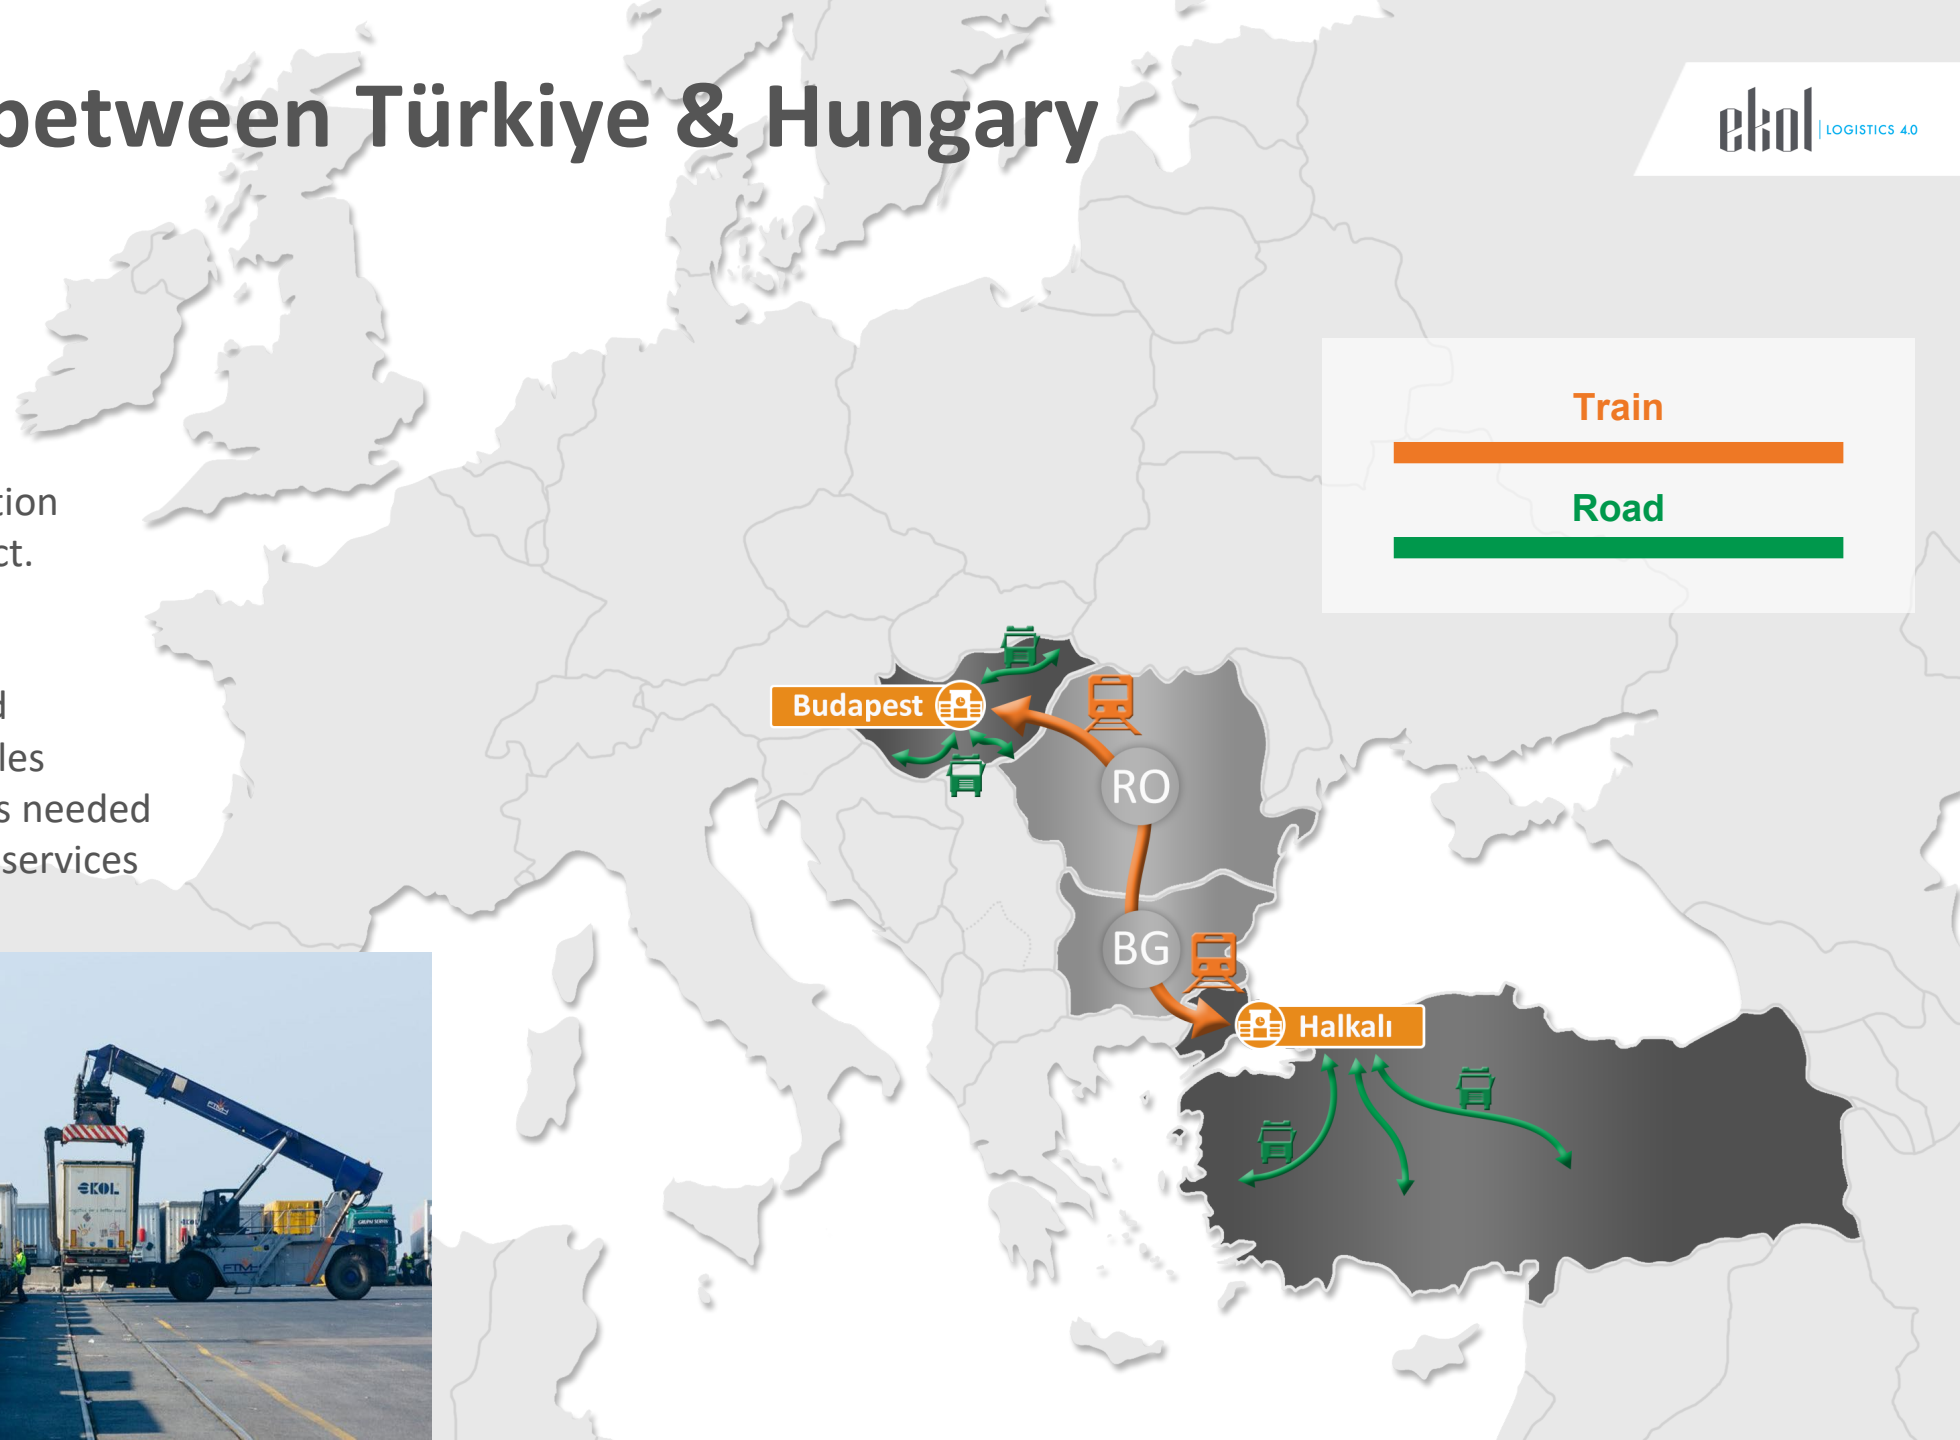

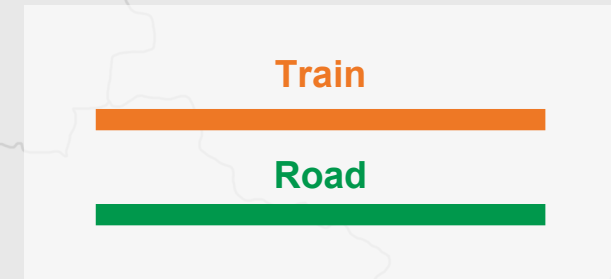

6-8 days.

Advantages

- Environment friendly solution
- No permit availability effect.

Disadvantages

- Longer transit time vs road
- Rail infrastructure obstacles
- Special trailers and wagons needed
- Synchronization between 3 services
- Limited capacities.

Ro-Ro service between Türkiye & Hungary

Transit time (IST – BUD)

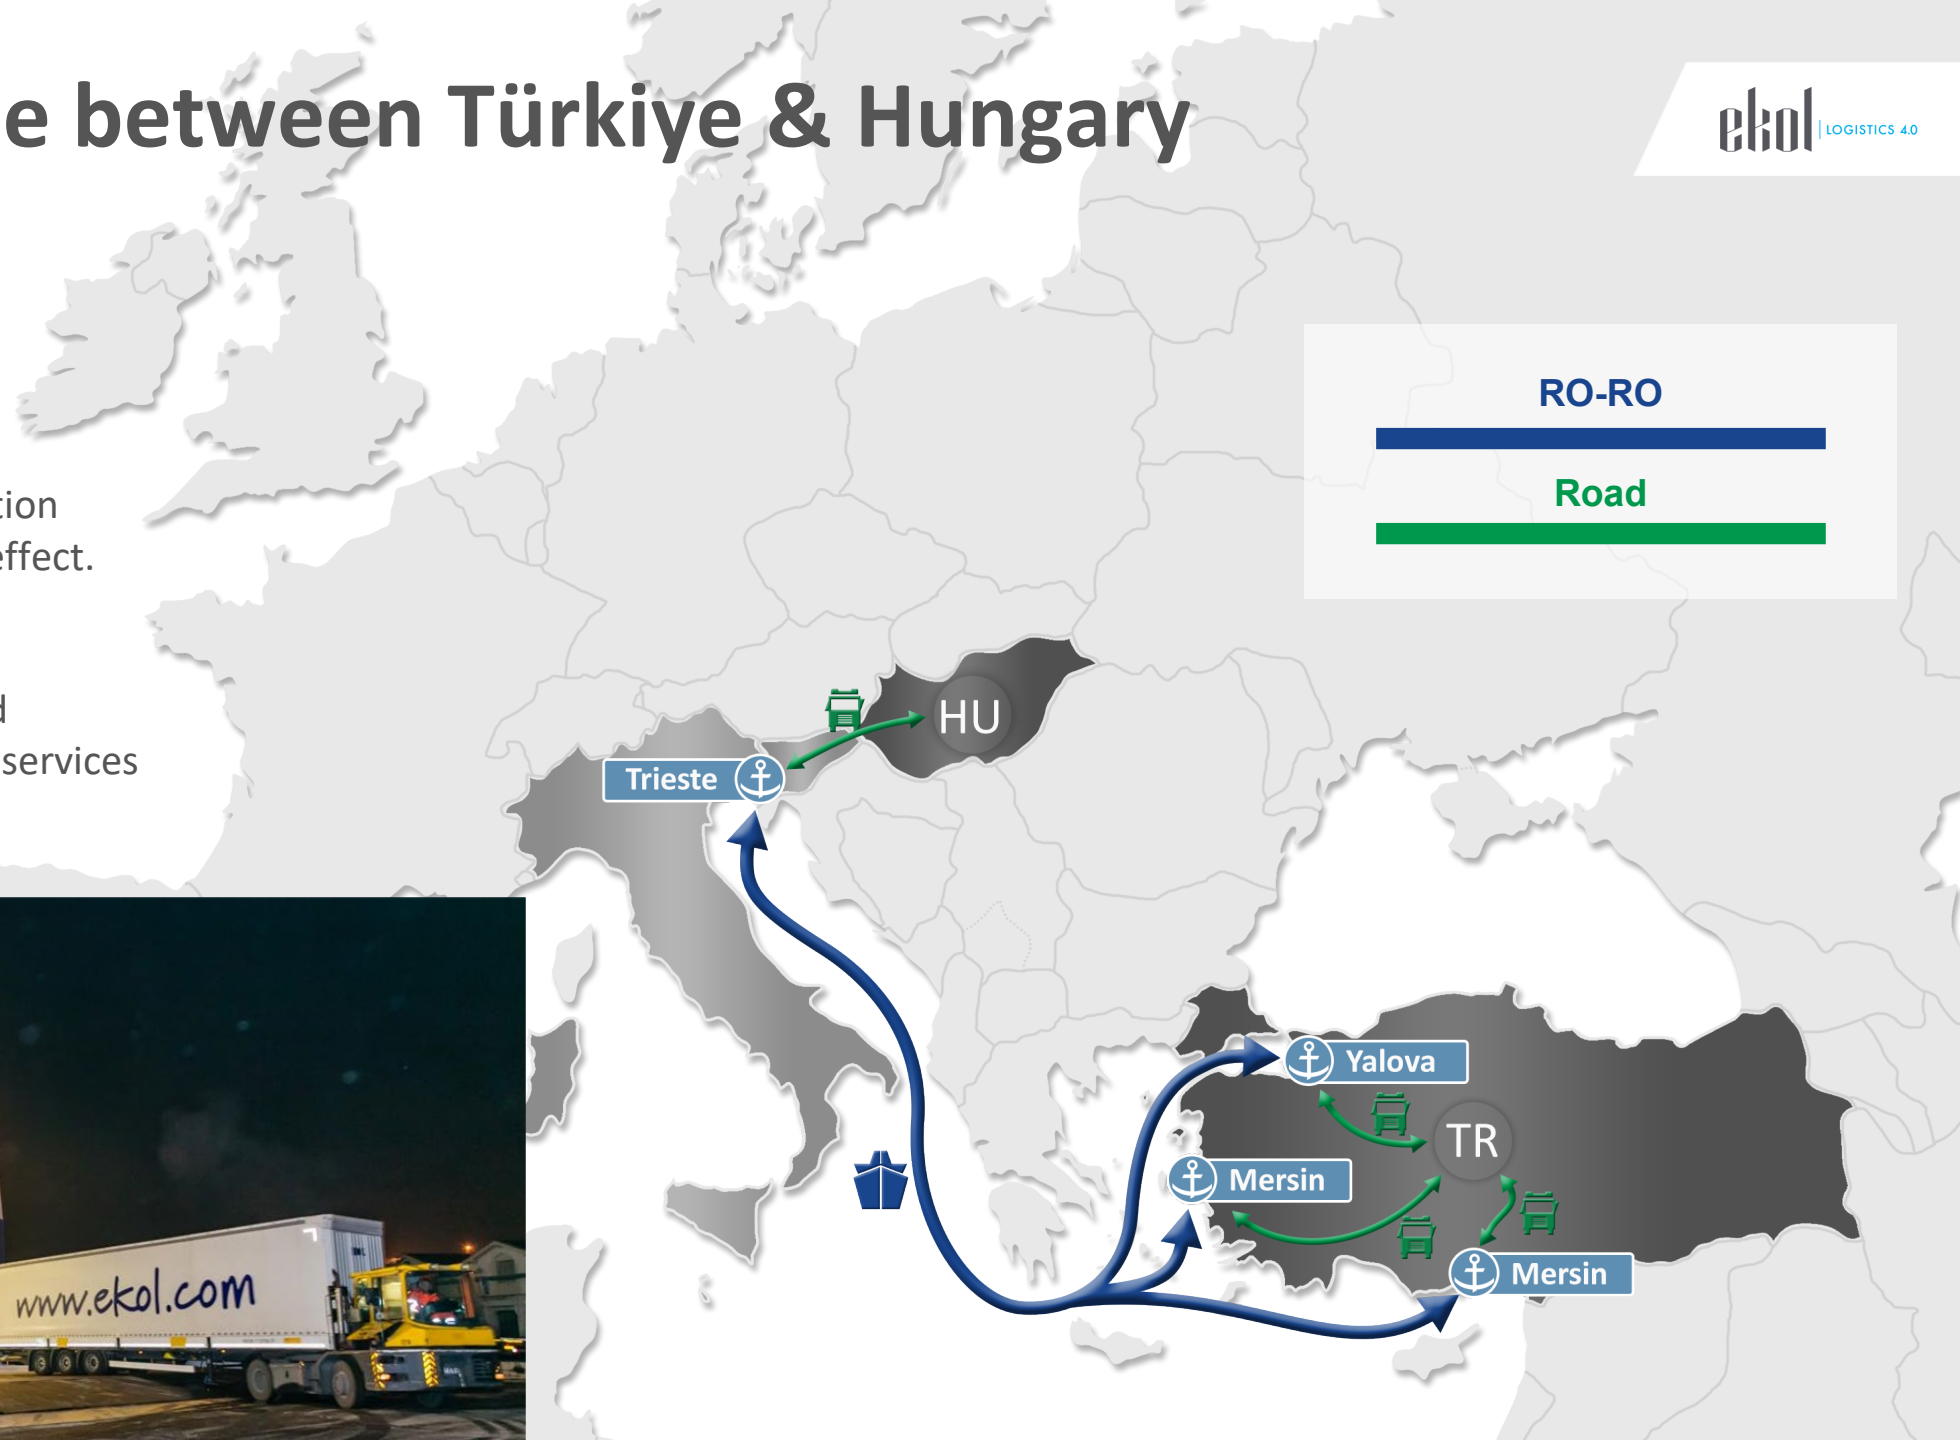

6-8 days.

Advantages

- Environment friendly solution
- Partial permit availability effect.

Disadvantages

- Longer transit time vs road
- Synchronization between 3 services
- Weather impacts.

Other freight solutions between Türkiye & Hungary

Air freight

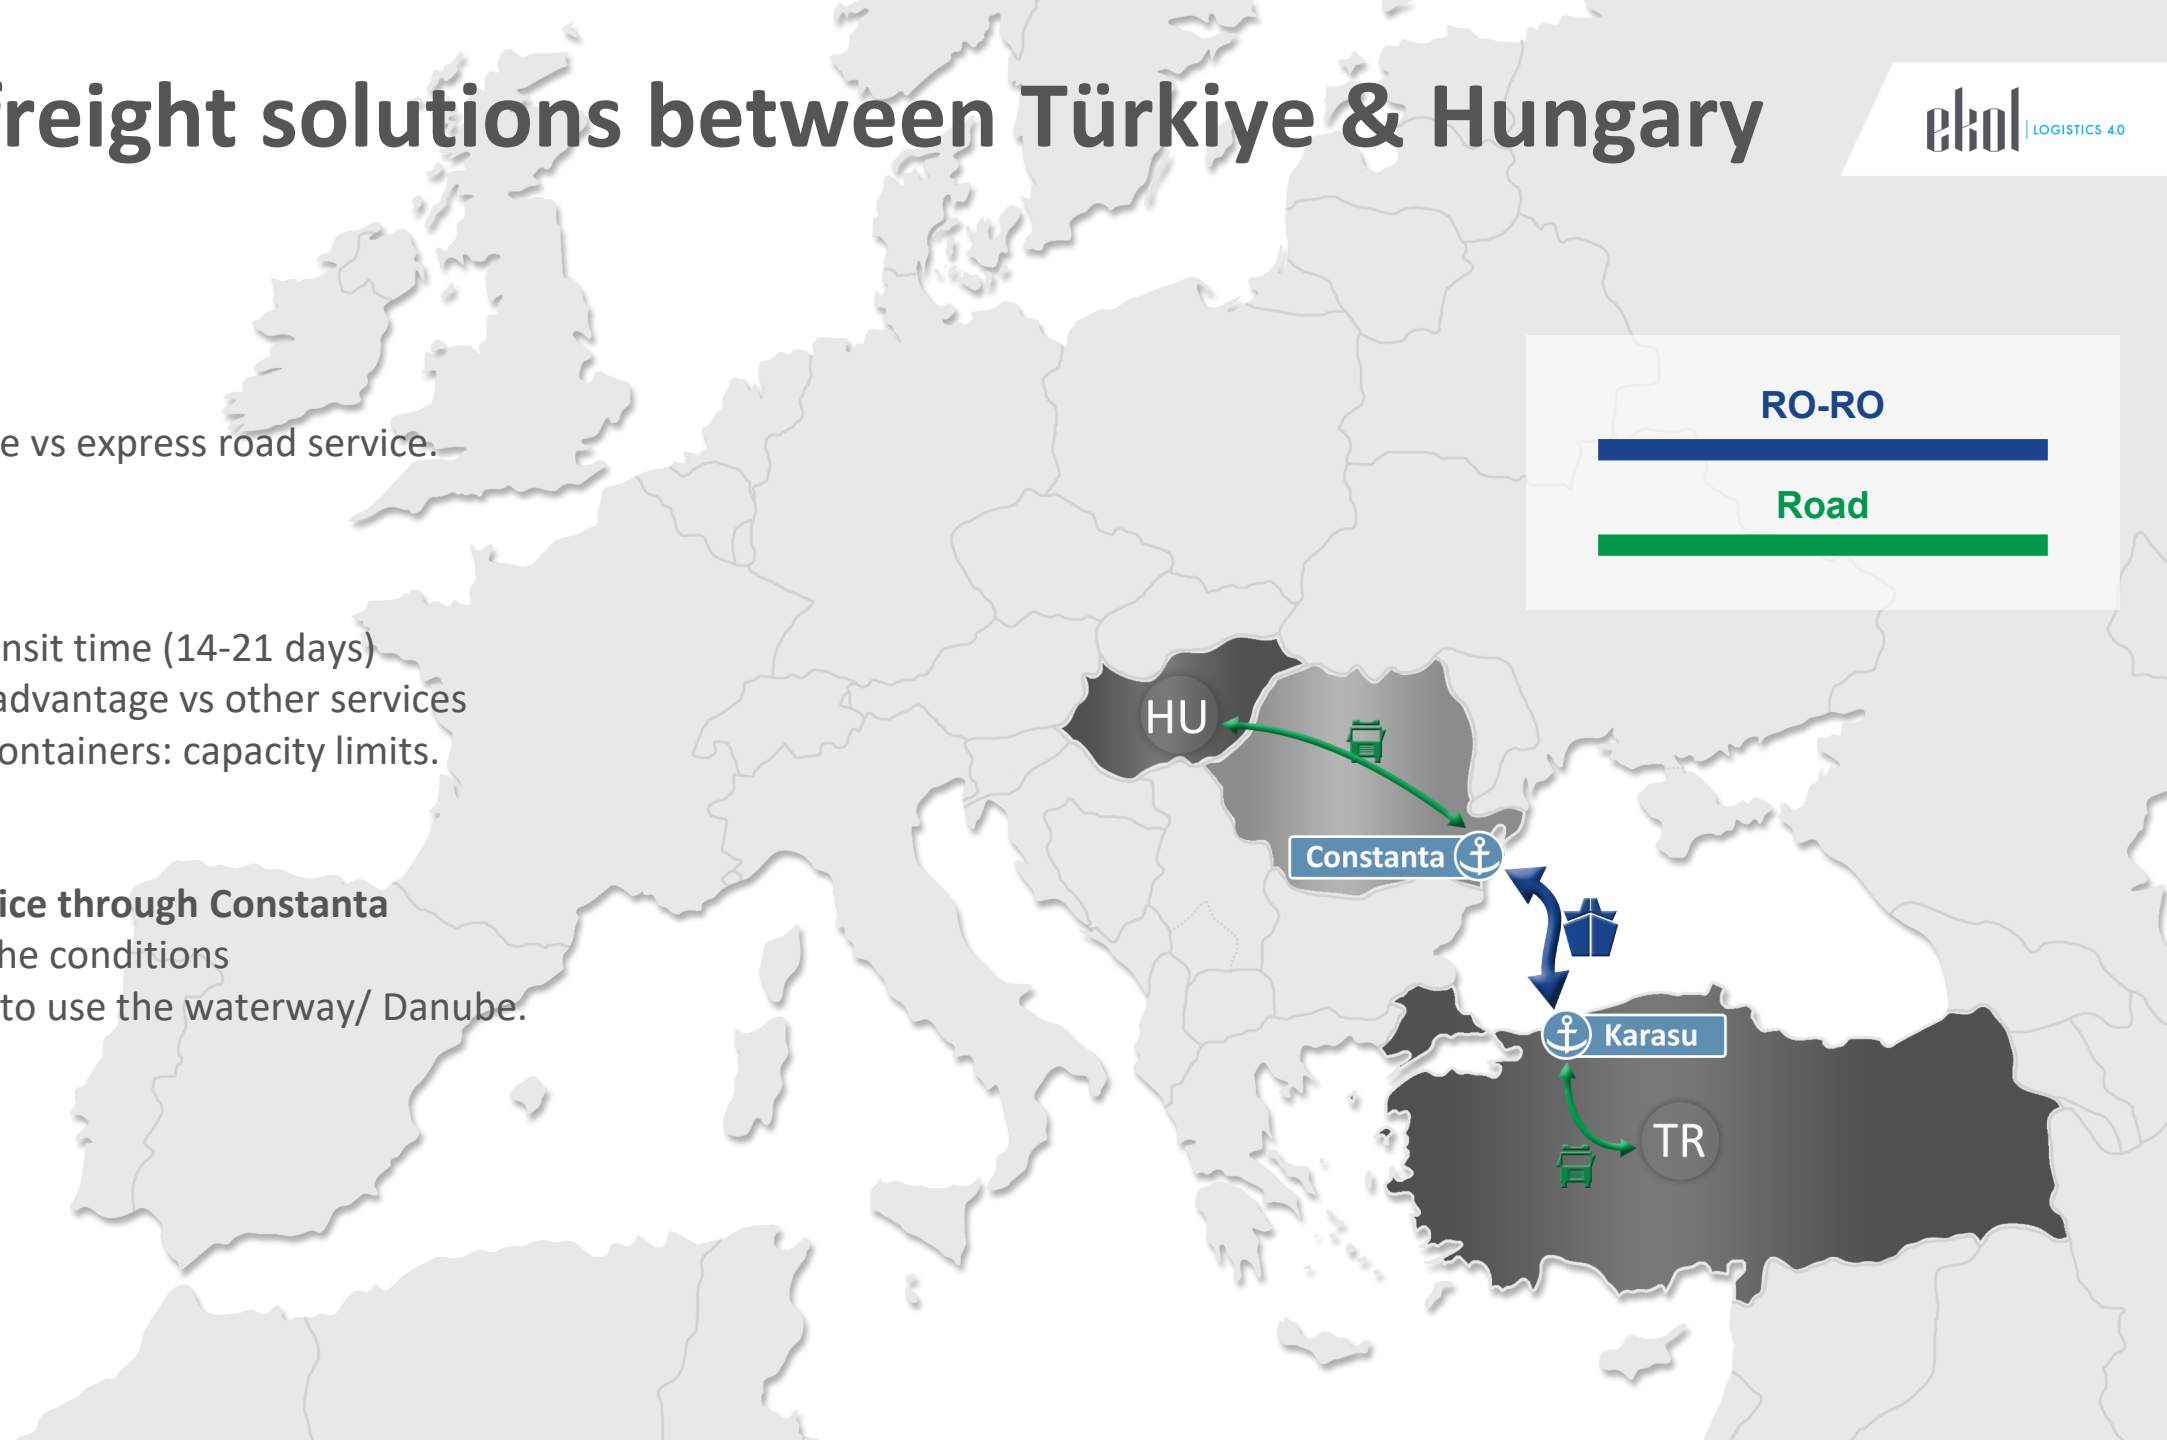

- Not competitive vs express road service.

Sea freight

- Very long transit time (14-21 days)
- Minor price advantage vs other services
- 20' and 40' containers: capacity limits.

New Ro-Ro service through Constanta

- Waiting for the conditions
- Opportunity to use the waterway/ Danube.
